Made in China

Size:

32"L x 18"W x 9"H

Part #:

77657 Black

72659 Timber- *Discontinued 2007*

77656 AP HD Camo

Fit:

Standard ATV Rear Racks

Technical Features & Advantages

- Two big zippered side pockets
- Four fast access outside mesh pockets
- Big center area with elastic cords holds a cooler, boxes, clothes and more
- Storm flaps on pockets keep rain away from the zippers
- Dual insulated drink holders
- Protective foam base cushions your gear
- Huge zippered back pocket with three reinforced removable cargo dividers
- Handy cover pulls out from a zippered bottom compartment to keep your ATV seat, handlebars and front cargo dry during stops.
- Big rear zippered pocket
- Quickly fits standard ATV rear racks with eight adjustable straps

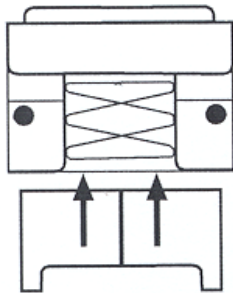

Hurricane Fabric:

- Rugged Hurricane Fabric won't stretch or shrink.
- Fabric coating technology assures maximum water resistance and water repellency
- U.V. resistant material protects against sun damage
- Resists mildew

Instructions:

Installation

1. Unzip the pocket on the bottom front of your organizer. Pull out the cover, lift it up and insert the two provided foam pads as shown. Replace the cover into the pocket, into the space left by the foam cutouts. Zip up the pocket

How to thread a ladder lock

2. Place your organizer on the rear rack of your ATV as shown in the above photo. Loop each of the eight straps over your rack and then thread them through the corresponding ladder lock buckles. Be sure that the straps are tight before you drive your ATV.

Loading your organizer

You can secure a cooler or other cargo in the center of your organizer using the provided elastic cords.

The main rear pocket has movable cargo dividers you can use to separate your gear.

If you put breakable items in the pockets cushion the sides from other items in the pocket.

Your organizer and pull out cover are highly water resistant but no fabric is completely water proof. Cover any items that can be damaged by water in plastic.

Your Deluxe ATV Rear Rack Organizer is not intended to be used as a seat while driving.

Using the pull out cover

The cover pulls out of the zippered pocket on the bottom front of your organizer. It has elastic hems to help it stay over handlebars and the front rack.

Cleaning

You can clean the organizer and pull out cover with a soft brush and warm water or machine wash in COLD water (don't wash the foam pads). DO NOT USE SOAP as it can damage the protective coatings on the fabric. Line dry or machine dry on air or delicate.

Storage

Be sure that both your organizer and pull out cover are completely dry before you store them for an extended period. Always dry out a wet cover after a ride. If you store a wet cover in the organizer pocket it could develop mildew.

Two Year Limited Warranty

This product is factory warranted for workmanship and materials for two years after purchase.
