

Everhold Folding Bike Repair Stand Instructions

1. Open the base (A) and remove the screw (K) from the base.
2. Attach the stand tube (B) onto the square tube and fix it with the already affixed screws (L) (M8 x 20).
3. Attach the holding bar (C) onto the base (A). Fix the holding bar (C) with the screw (K) that you removed in step 1. Secure the holding bar (C) with the wing screw (M).
4. Attach the 4 plastic feet (O) on the end of the stand tube (8).
5. Attach for the bike clamp (E) through the top into the hole (F) of the holding bar (C) and push the spring (G) from below again onto the holding clamp, hold in place with the wing screw (H).
6. Attach the tool storage tray (I) into the hole on the base (A).
7. Check all screws and nuts for their stability and re-tighten them if necessary.
