

bike stand

Press knob to unlock adjustment clamp

While pushing the adjustment clamp down (as shown) extend the pole to the desired length

Once the pole is extended to the desired length, press the knob to lock the adjustment clamp in place. Make sure it is locked before proceeding

Once the pole is in place, you loosen or tighten the pole's position to steady it as shown. Make sure it is secure in place and that the floor and ceiling surfaces are solid and flat

Attach one or two of the holders as shown depending on the number of bikes you wish to store. Make sure they are secure in place before hanging your bike(s)

Hang your bikes on the holders (as shown)

IMPORTANT!

- > Recommended maximum capacity is 110lbs
- > Hang your bikes in a safe area away from other objects and human traffic
- > This storage unit is meant as only a storage unit & not to be used as a work stand
