**Necessary Information**

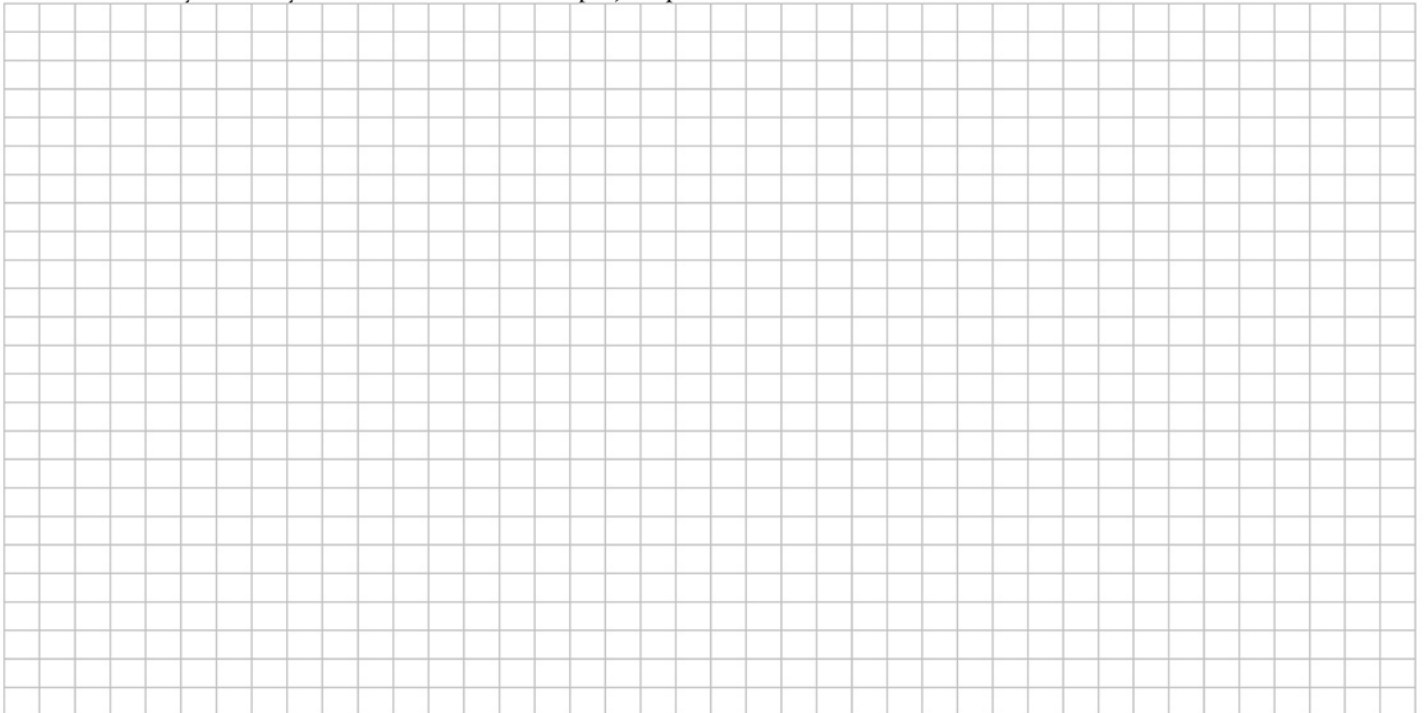

Total Rise\* \_\_\_\_\_

Digital Pictures Submitted (Jpeg format) YES  NO

**Possible Obstructions (check all that apply)**

- |                                       |                                       |                                      |                                      |
|---------------------------------------|---------------------------------------|--------------------------------------|--------------------------------------|
| <input type="checkbox"/> Sewer Drains | <input type="checkbox"/> Trees/Bushes | <input type="checkbox"/> Flower beds | <input type="checkbox"/> Bay windows |
| <input type="checkbox"/> Gas Meters   | <input type="checkbox"/> Walkways     | <input type="checkbox"/> A/C Units   | <input type="checkbox"/> Other _____ |

Sketch build site according to best possible layout. Please show: any obstructions, platform size needs (if any), start and finish markers, and any necessary details needed to create a project quote.

**Additional Information/Special Instructions**

\*If the starting point is at a height greater or less than the rise at point of entry (usually due to the slope of the yard), be sure to make the appropriate changes to the total rise needed.
