1 IN SAFETY AND FUNCTION

24in x 92in Shark Kage

Congratulations on the purchase of your new 24in x 92in Shark Kage! Hours of our personal time have gone into operating the many uses of the Shark Kage Ramp and we know you will enjoy it as much as we have. We encourage you to review your owner's manual in order to fully appreciate how to easily configure your Shark Kage Ramp into the shape that best serves your needs.

Please contact our customer service staff for additional questions you may have at (702) 982-1400 or email us at customerservice@sharkkage.com.

For more information please visit our website at www.sharkkage.com

Truck Bed to Ramp

1) Remove rubber latches on both sides.

2) Open tailgate and fold panels into triangle position.

3) Lock triangle set hook.

4) Roll folded panels onto tailgate.

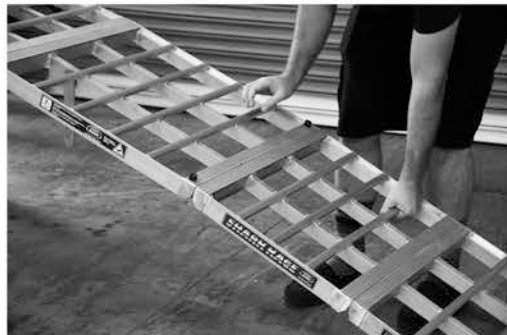

5) Roll under tailgate by grabbing panel 2.

6) Release triangle set hook.

7) Lift Shark Kage upward by grabbing panels 2 & 3.

8) Slide out bottom end panel 4 with your foot.

Reverse order of steps to fold back into truck bed.

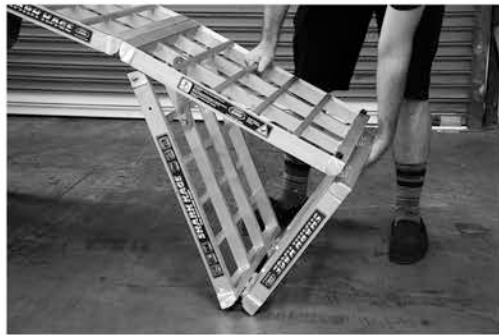

Ramp to Bed Extender

- 1) Lift Shark Kage upward by grabbing panels 2 & 3.

- 2) Slide bottom panel 4 under with your foot.

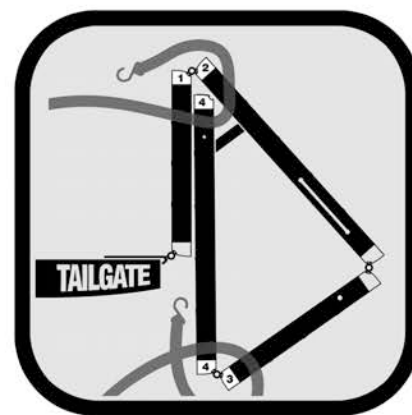

- 3) Fold panel into triangle and set triangle set hook.

- 4) Lift onto tailgate and against the rear wheels of your loaded vehicle.

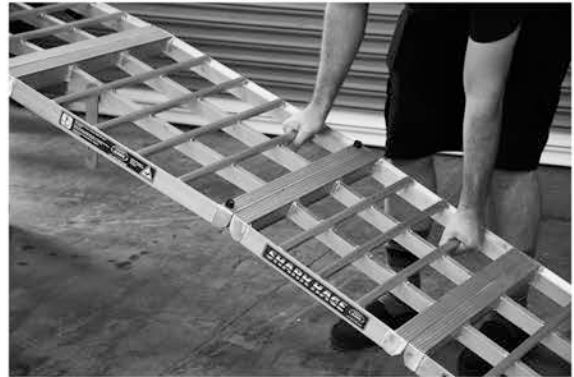

- 5) Attach three (3) provided tie-down straps (one at each top corner and one under tailgate).

Be sure that upper straps route through panels 1, 2, and 4.

Reverse order of steps to fold back into ramp.

Ramp to Work Table

- 1) On a smooth flat surface, lift the middle two panels and let the last panel fold to 90 degrees.

- 2) Prior to using, insuring rigidity and always test before putting additional weight onto the worktable

Reverse order of steps to fold back into ramp.

1 IN SAFETY AND FUNCTION

Ramp to Cargo Box

1) Lift Shark Kage upward by grabbing panels 2 & 3.

2) Slide bottom end panel 4 with your foot.

3) Fold panels into triangle and lock triangle set hook.

4) Lift folded panels onto tailgate.

5) Roll folded kage into truck bed.

6) Remove safety set hook latch.

7) Lift panel 4 (box lid) and close tailgate.

8) Lower last panel and secure rubber lock tabs

Reverse order of steps to fold back into ramp.

2 Year Limited Warranty – Subject to the exclusions contained below, Zappbox, LLC., at its option, will at no charge, repair, replace (with same or equivalent product), or refund the purchase price if this product fails to hinge properly or after Zappbox evaluation is determined to have other defects in material or workmanship within two (2) years from the date of purchase. This warranty does not cover damage due to abuse, incorrect use, or over-loading the Shark Kage in any of its configurations, or failure to follow guidelines for proper use and care. To obtain service, contact Shark Kage at 702-982-1400 to speak with a Shark Kage representative and obtain an RMA number (Returned Merchandise Authorization). Upon authorization, ship the product prepaid along with original dated and legible sales order or receipt to Shark Kage, 6770 Paradise Road, Las Vegas, NV 89119. Clearly state the RMA number on the packaging. Allow 4-6 weeks for handling. We are committed to making high quality products. Returning the product to us helps us to monitor and improve product quality.

Exclusions – This product was pre-tested and date coded prior to shipment. This limited warranty extends only to the first consumer purchaser, and is not transferable. This limited warranty does not include:

- 1) normal wear and tear,
- 2) products not used in accordance with directions provided on or with the product,
- 3) products that have been subjected to unauthorized repair, and/or modification, or
- 4) damaged caused by shipping, improper handling, alterations, misuse, or accidents.

ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. OTHERWISE THE REPAIR, REPLACEMENT, OR REFUND AS PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER, AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL ZAPBOX, LLC. BE LIABLE, WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, OR FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, ARISING OUT OF OR IN CONNECTION WITH THE USE OF THE PRODUCT TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW.

Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the length of an implied warranty, so the above limitations or exclusions may not apply to you. This limited guarantee gives you the specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.

When shipping product back to us, please include your return address, contact phone, and email address in addition to the other requested information.

1 IN SAFETY AND FUNCTION

Please use good judgement and common sense with your new SHARK KAGE Multi-Use Ramp.

- Use of any ramp product can be inherently dangerous and cause serious injury or death if not used with care and caution.
- To ensure safety and to get the most from your Shark Kage product, it is the user's responsibility to read and follow all instructions.
- Be sure to read and follow the labels on the Shark Kage Multi-Use Ramp.
- Additional care and caution must be taken when the Shark Kage becomes wet or muddy. It is not recommended to use Shark Kage when wet or muddy. Clean the Shark Kage and vehicle of debris before loading and unloading vehicle. Operate on clean and dry ramp only.
- Keep these instructions with the Shark Kage at all times and review before each use.
- It is the responsibility of the Shark Kage owner to furnish the instructions to anyone that purchases the Shark Kage from the original purchaser.
- Always use good judgment and practice general safety measures when using the Shark Kage for any of its stated uses.
- Shark Kage is not recommended for anyone under the age of 16 years old.
- Do not exceed the manufacturer's recommended tailgate load capacity. Never use the Shark Kage on an unsafe or damaged tailgate.
- Thoroughly inspect tailgate cables and ramp safety straps for cracks or fraying before each use.
- Before each use, inspect the Shark Kage making sure all parts are in safe working order, are not damaged in any way, and are in good condition free of structural defects.
- A helmet must be worn when loading and unloading vehicles using the Shark Kage.
- Never exceed the maximum weight limit of the Shark Kage. Each Shark Kage has a stated weight limit capacity that must be followed at all times.
Shark Kage 24in x 92in = 750 lbs.
- Never modify the Shark Kage in any way. Modifications will void all warranties and capacities.
- The Shark Kage ramp platform has openings, holes, and crevices. Use extreme caution when walking on the Shark Kage to load or unload vehicles. Keep your feet parallel (flat) to the Shark Kage surface when walking up or down the ramp. Do not walk up or down the Shark Kage as if it were a ladder with your toes pointed downward, through, or inside the openings, holes, or crevices. Keep your feet flat on the surface to avoid your foot becoming lodged or stuck in one of the open spaces.
- Riding a motorcycle, ATV, or other vehicle up or down the Shark Kage or any ramp can be potentially dangerous. The user assumes all responsibility and liability for riding or walking up and down the Shark Kage Multi-Use Ramp.
- Do not use Shark Kage while under the influence of alcohol or other substance that may impair one's judgment.
- Do not use excessive speed if you choose to ride your vehicle up or down the Shark Kage.
- If you choose to ride up the Shark Kage, you must be prepared to stop your vehicle safely and gently once in the truck bed. According to your skill level, we recommend to have safety spotter's stand on each side of the Shark Kage when taking a vehicle up or down the ramp. Safety spotters must use caution when standing near the ramp with a vehicle on it as the vehicle may fall or land on them causing serious injury or death.
- Shark Kage has several pinch points that can cause serious injury. Keep fingers, hands, and loose clothing away from the pinch points including the hinge areas and the spaces between each panel of the Shark Kage.
- Be aware that Shark Kage may extend the length of your pickup truck and hang off of your tailgate. Extra caution must be taken when backing up, parking, and driving while Shark Kage is in Bed Extender mode as additional distance will be required to clear objects, other vehicles, trees, etc.
- Set parking brake in vehicle while operating the Shark Kage.
- Perform regular inspections and maintenance on the Shark Kage.
- Do not load anything onto the folded Shark Kage. This can damage your loaded vehicle, truck tailgate, and truck bed.
- Do not Trigger damage by placing excessive weight on your Shark Kage in any of the configuration.

Frequently Asked Questions (FAQs)

1. How do I use the 3 tie-downs that came with my Shark Kage?

- a. For Bed Extender mode, two of the 3 tie-downs must be used as shown on the sticker on the side of your Shark Kage. Loop the tie-downs through the top of the panels and secure to the tie-down loops in your truck bed. Secure the third tie-down through lower panel and secure below / under your tailgate to your hitch loops.

2. How do I use the Bungee Cargo Nets?

- a. The cargo nets are intended to help keep items in the truck bed when in Bed Extender mode. Secure the tie-down bungee hooks to the ramp and to the truck as shown in the user guide. Note: We cannot guarantee that the cargo nets will keep all items from sliding out of your truck bed. It is your responsibility to secure all loose items in your truck bed.

3. Should I remove the Shark Kage when I'm not using it to load and unload my motorcycle or dirtbike?

- a. No. There really isn't a need to remove Shark Kage. You can put it into Cargo Box mode or lay it flat in your truckbed and use it to transport gear or keep other items from sliding around the truck bed. You can also easily and conveniently put Shark Kage into Work Table, Bed Extender, or Ramp mode when needed.

4. How do I remove the Ramp after I attach it?

- a. There are 2 hinges that hold Shark Kage to the Shark Bite mounting plate. Use a 13mm wrench to loosen the nuts and remove the bolts.
- b. The Shark Bite mounting plate remains attached.

5. I need to remove the Shark Bite, how do I do that?

- a. You may remove the Shark Bite Mounting plate if you really need to, but it's not recommended to remove it too many times as the receptor mounts may wear out over time making it necessary to replace them or drill new holes into the tailgate.
- b. If you are installing a tight fitting, weather-proofed bed cover, you'll most likely need to remove the Shark Bite.

6. How long is the warranty period and what is covered?

- a. 2 Years - We will replace your Shark Kage due to a manufacturer defect within 2 years of purchase to the original owner only. We will pay for return shipping to you for the new unit. (See warranty instructions on page 8 of this manual).

7. How do I Install Shark Kage?

- a. See Installation Template and Installation Guide. These documents are also available at SharkKage.com (we will announce availability dates).
- b. See How To videos at: www.sharkkage.com/howto video

8. What is the weight capacity of my Shark Kage 24in x 92in?

- a. 750 lbs total weight on ramp
- b. Do not exceed recommended weights at any time or serious injury and property damage may occur.

9. Should I walk or ride my vehicle up the ramp?

- a. We recommend walking your vehicle up and down the ramp. Be sure to keep your feet flat and parallel with the ramp and avoid placing your feet into the openings on the ramp. However, many people will ride their vehicles up the ramp. We recommend having a spotter on either side of you in case you lose your balance. The decision to ride is at the sole discretion of the operator. The operator must possess adequate skills to perform this procedure and assumes all risks and responsibilities while performing said procedures.
- b. We recommend the use of a helmet when taking vehicles up or down the ramp.

10. How do I care for my Shark Kage?

- a. Keep your Shark Kage clean and free of debris, grease, mud, and dirt. Simply hose down and wipe dry your Shark Kage when done using it.
- b. Do not use Shark Kage as a bridge or not as intended.
- c. Do not exceed the stated weight capacity. (750lb)

11. I want to lubricate my Shark Kage hinges, what should I use?

- a. Use of a light weight oil, graphite or silicon spray lubricant works best.

12. I have other questions that I don't see here, what do I do?

- a. You may call the Shark Kage Customer Relations Team M-F, 8-5 PM Pacific Time. We're happy to answer any other questions you may have! 1-702-982-1400 or email us at customerservice@sharkkage.com.
