U-2200IEH-XR Retractable Ramp UTV Lift

The iDEAL U-2200IEH-XR is designed to lift the largest UTV's with 2200lbs. capacity and a 65" X 88.6" table. Our newly designed drive on pivot ramps fold down and out of the way becoming wheel stops while the innovative retractable center ramp slides out of the way making for a safe and clean work space. The UTV side extensions also incorporate innovative center drop panels to provide unmatched service access, including servicing motorcycles without removing side extensions.
